

# Posture

COLLECTION

Back pain is very common; almost half the UK adult population report lower back pain lasting for at least 24 hours, at some time in the year.

As more and more time is spent sitting at a desk, working at computers, it's critical for an office chair to fit the employee's body.

Pledge Office Chairs has worked closely with leading industry specialists in posture evaluation related to chair design.

The Posture Collection enables a chair to be selected to best fit individual body requirements.
